High School Math 3 Syllabus 2018-19

Course Overview:

This course will focus on topics including: Geometric Figures, Similarity and Trigonometry, Circles, Probability, Quadratics and Functions. We will also be preparing for the ACT that Juniors will take in the Spring.

The Blended Classroom:

Our class will run under the "blended" model, meaning we have more access to technology, and student responsibility is higher. We will talk more in class about what this means and expectations, but your enthusiasm, flexibility and hard work are required!

Assignments/Group Work/Assessments:

*Students will be responsible for completing assignments on a daily basis. The assignments will be graded in different ways. They may be graded for complete or partial correctness, checked for completion, or used for an in-class homework quiz. We will be completing individual, partner, or group assignments and students are expected to actively participate during class. Any work not completed in class will become homework. **USE CLASS TIME WISELY!**

Evaluation Plan:

Quarter Grade

Total points earned

Total points available

Points will vary based on length and difficulty.

- Tests and Projects
- Quizzes
- Online practice assessments
- Exit Slips
- Bell-ringers/Warm-ups
- Assignments

Semester Grade

80% - Average of the two quarter grades

20% - Final Exam
